NEXUS

Single API to connect all suppliers

Faster go to market

Already pre-integrated with all the leading suppliers, **NEXUS** facilitates a faster go-to market. With well documented APIs and SDKs for all platforms, integration is quick and seamless.

Content mapping & standardization

No need to worry about the handling of the same hotel coming from different suppliers. **NEXUS** enables returning just one copy of a hotel mapped across different suppliers. Moreover, when hotel content comes from multiple content sources, it becomes tough to show the best of the available content. Our API handles returning of the best content available across different content sources too.
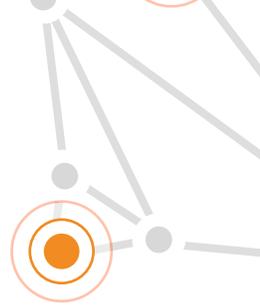

Flexible search with speed & quality

Our flexible search options allow for an exact circle-based or polygon-based search within a city or neighborhood. **NEXUS** also incorporates optimized search patterns across all suppliers to bring the best performance out of supplier APIs, while our developed cloud-first architecture ensures the best of the rest – performance, scalability and uptime.

Total control of business

10% of the best content drives 90% of your revenue. Intelligent insights help you understand your most valued 10% to optimize it for accuracy, speed and profit. Exercise total control over your business with the ability to change business configurations and view business reports in real time. Bias result listing to show the best and most relevant content on top, while extensive yield management enables you to be in control of your margins and competitive at the same time.
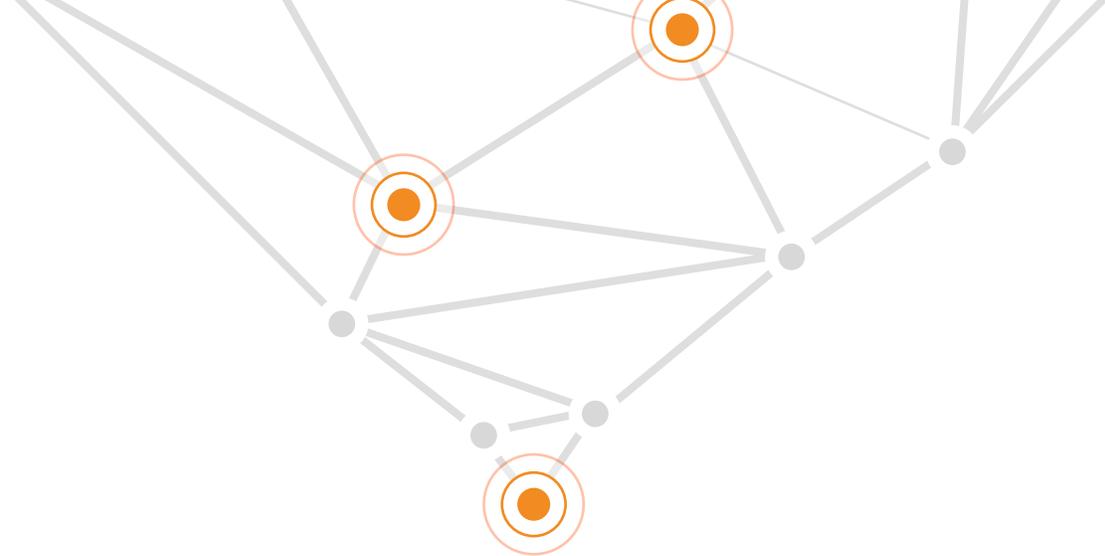

Multilingual & distribution-ready API

Ready-to-go API for offering in multiple countries with different languages, and well documented APIs available for seamless content distribution to other travel agencies.

Flexible business model

Whether you're a small to mid-sized travel agency that prefers our SaaS offering with a payas-you-use pricing to keep your costs under control, or a big business that prefers our Enterprise offering with dedicated cloud deployment of software, and a dedicated team of experts for new supplier and third party systems integrations - we've got just the right engagement model for you.

NEXUS

Integrated Suppliers
